

CFATG 10

10th Scientific Days on Autophagy

Kursaal theater, Besançon, France

May 31 - June 02, 2022

Registration now open!
<https://cfatg10.sciencesconf.org/>

Invited speakers:

- Patricia Boya**, CIB Margarita Salas, CSIC, Madrid, Spain
- Francesco Cecconi**, Danish Cancer Society Research Center, Copenhagen, Denmark
- Patrice Codogno**, Institut Necker-Enfants Malades, Paris, France
- Mathias Faure**, CIRI, Université de Lyon, Lyon, France
- Oliver Florey**, Babraham Institute, Cambridge, UK
- and Daniel Klionsky**, University of Michigan, Ann Arbor, MI, USA

4 Thematic sessions :

Regulation & signaling, Cancer, Immunity & Infection and Physiopathology

Local organization committee from Besançon / Dijon: Aurélie BAGUET (UMR1098 RIGHT), Jean-Baptiste BIZEAU (INRAE, UMR1324 CSGA), Marie-Agnès BRINGER (INRAE, UMR1324 CSGA), Gilles DESPOUY (UMR1098 RIGHT), Michaël GUITTAUT (UMR1098 RIGHT), Elise JACQUIN (Inserm U1231), Pierre LAPAQUETTE (UMR PAM) and Anne VEJUX (EA7270/Bio-PeroxiL).

Thanks to our sponsors:

Program of the CFATG 2022 (May, 31st – June, 2nd)

Tuesday, May 31st 2022	
1:00 PM	Welcome / Registration
2:00 PM	Introduction: Local Committee President of the CFATG (Sophie Pattingre)
2:30 PM	Keynote Lecture: Daniel Klionsky, “Regulation of autophagy in yeast” (VISIOCONFERENCE) University of Michigan, Ann Arbor, USA
Session 1: Molecular Mechanisms	
3:30 PM	Keynote speaker: Oliver Florey, “Unifying molecular features of non-canonical autophagy” The Babraham Institute, Cambridge, UK
4:15 PM	O1 - Laurent Kuras, “Sulfur starvation-induced autophagy in <i>Saccharomyces cerevisiae</i> involves SAM-dependent signaling and the transcription activator Met4” (Gif-sur-Yvette, France).
4:30 PM	O2 - Juliane Da Graca* , “SNX cooperation regulates endosome-derived tubules delivery for autophagosome biogenesis” (Paris, France).
4:45 PM	Coffee Break
5:15 PM	O3 - Céline Masclaux-Daubresse, “Autophagy in Plant Senescence” (Versailles, France).
5:30 PM	O4 - Maxime Goguet* , “Chaperone-Mediated Autophagy: the zebrafish joins the dance” (Rennes, France).
5:45 PM	Flash Talks session 1: FT1 - Elif Begum Gokerkucuk (Rennes, France) FT2 - Oznur Ozturk (Paris, France) FT3 - Mounia Tahri Joutey (Dijon, France) FT4 - Charly Courdy (Toulouse, France) FT5 - Karla Alvarez Valadez (Paris, France) FT6 - Christophe Hibos (Dijon, France)
6:15 PM	Free time / Transfer to the Citadelle
7:30 PM	Apéritif / Dinner (Citadelle of Besançon)

Program of the CFATG 2022 (May, 31st – June, 2nd)

Wednesday, June 1st 2022	
	Session 2: Cancer
9:00 AM	Keynote speaker: Francesco Cecconi, “The complex interplay between autophagy and cell cycle in physiology and disease” Danish Cancer Society Research Center, Copenhagen, Denmark
9:45 AM	05 - Clément Auger* , “ Autophagy alteration and its role in early and late-stage colorectal cancer cells' aggressiveness” (Limoges, France).
10:00 AM	06 - Lucas Leonardi* , “Impact of autophagy in the pro-tumoral effects following TLR7 stimulation in non-small cell lung cancer” (Paris, France).
10:15 AM	Coffee Break
11:00 AM	07 - Jun Xu* , “BNIP3L/NIX, a downstream effector of oncogene-induced cancer cell autophagy and invasion” (Bern, Switzerland).
11:15 AM	08 - Eloïne Bestion* , “GNS561 autophagy blocker combined with anti-PD-1 increases anti-tumor activity in hepatocellular carcinoma mouse” (Marseille, France).
11:30 AM	Poster session 1
12:15 PM	Lunch

	Session 3: Physiopathology
1:30 PM	Keynote speaker: Patricia Boya, “Autophagy during aging and aging-related diseases” CIB Margarita Salas, CSIC, Madrid, Spain
2:15 PM	09 - Flavie Strappazon , “A natural variant of the autophagic receptor NDP52 as a novel target for treatments in Alzheimer's disease” (Roma, Italy).
2:30 PM	010 - Olivia Lenoir , “Calpastatin prevents Angiotensin II–mediated podocyte injury through maintenance of autophagy” (Paris, France).
2:45 PM	Coffee Break
3:15 PM	011 - Amina Bourragat* , “Prevention of dietary obesity in fat-1 transgenic mice: do n-3 polyunsaturated fatty acids preserve colonic mucus layer integrity by modulating autophagy in goblet cells?” (Dijon, France).
3:30 PM	012 - Rola Sayegh* , “Autophagy in T Lymphocytes protects against liver fibrosis in mice” (Paris, France).
3:45 PM	Flash Talks session 2: FT7 - Aurore Claude-Taupin (Paris, France) FT9 - Jean-Baptiste Bizeau (Dijon, France) FT10 - Delphine Judith (Paris, France) FT11 - Leïla Fonderflick (Besançon, France) FT12 - Quentin Frenger (Strasbourg, France)

Program of the CFATG 2022 (May, 31st – June, 2nd)

4:15 PM	Poster session 2
5:15 PM	Assemblée Générale CFATG
6:00 PM	Free time
6:30 PM	Special 10 th Anniversary Lecture: Patrice Codogno, “CFATG: This is the way” Paris, France
7:30 PM To 2:00 AM	Gala Dinner (Kursaal Theater, Besançon) Concert with the Membrane Band

Thursday, June 2nd 2022	
	Session 4: Immunity and infection
9:00 AM	Keynote speaker: Mathias Faure, “Autophagy remodeling in infection and pathology” CIRI, Université de Lyon, Lyon, France
9:45 AM	O13 - Coralie Daussey* , “Viral control by Adenovirus of the cellular membrane damage response” (Bordeaux, France).
10:00 AM	O14 - Baptiste Pradel* , “The autophagic machinery favours HIV-1 entry in CD4+T lymphocytes” (Montpellier, France).
10:15 AM	Coffee Break
11:00 AM	O15 - Charles Thomas , “Inhibition of mitophagy drives macrophage activation and anti-bacterial defense during sepsis” (Dijon, France).
11:15 AM	O16 - Elise Jacquin , “STING and autophagies in immune cells, what consequences for antitumor immunity” (Dijon, France).
11:30 AM	Poster and communication prizes Meeting Closure: Local Committee and President of the CFATG (Sophie Pattingre)
12:00 PM To 2:00 PM	End of the meeting Lunch boxes

*: eligible for the best short talk prize
